

## Here are two options for reading and creating PDF files.

**Adobe Reader** – Free Software (click on the icon)

Or paste this link into your browser

<http://www.adobe.com/products/acrobat/readstep2.html>

---

**PDFCreator** – Free Software (click on the icon)

PDFCreator will install as a printer. Once installed you can select PDFCreator from your list of printers and it will convert and save your document as a PDF.

Or paste this link into your browser
